Greetings Fellow Golfers,

I realize there has been some concern for the health of our greens. Following is a statement from our Superintendent:

"Hi to all, I wanted to take a minute to address the condition of the greens and assure everyone that we are doing all that we can do to achieve the fastest recovery possible. We started having conversations with the "Champion Turf" people in March after such a harsh winter. We have followed their recommendations to the letter and will continue to do so until this issue is resolved. The greens have come out quite a bit in the last week and will continue to improve immensely over the next several weeks. I would like to thank you all in advance for your patience concerning this issue and as always please call me on my personal cell (919 922 2194) or contact any of the advisory committee with questions and/or concerns. Below are a few links to some articles written by reputable sources that may also help explain how we got to where we are now. Thanks again, GMGC Superintendent Joe Martikke"
